

COMMERCIAL.

The trade in the Jobbing dry goods line opens better than it generally reported on Monday. Dry goods are very cheap, and when the season is suitable a better movement is confidently expected. Gifcates remain steady and unchanged, business good. The fish market has improved considerably with the prospects of a good trade during Lent, at least. Vegetables are steady with the exception of choice apples, which are advanced. Receipts of eggs are on the increase, and the demand still light, prices being again down to old figures. Butter, good, sweet rolls in great demand. Poultry active.

The following table shows the receipts of grain at this point for the past twenty-four hours:

BRITISH GRAIN TRADE REVIEW.

LONDON, Feb. 23.—The Mark Lane Express, in its review of the British grain trade during the past week, says:

English wheat declined \$1 Friday and extreme dullness prevails in the market. Sales of English wheat during the past week were 88 quarters at 22s 1d each, making 55,196 quarters at 20s 1d during the corresponding week last year. Flour is less chearier. There is limited business in barley and the tendency weaker. Oats are improved in price. The foreign wheat trade is watched with interest, and a general improvement is to be expected. Foreign flour is very dull and difficult of sale. American maize in London is quoted at 22s 6d in excess of shipments at Liverpool. It is quoted regularly, but in very small quantities. Corn oil, corn meal, and other articles in large quantities, making higher in relative values, tend to sell up. Four cargoes arrived: one cargo sold and the remainder, two of which are Californian; about twenty cargoes are due, chiefly California. The foreign wheat trade is not so active as last year, but wheat is cheaper to-day. English flour is not lower; foreign slow with dragging sales; maize steady; malting barley dull and weaker.
